

Private Parts by Ron Rocco (Rotterdam, 1993, \$15.00)

Is a spiral bound bookwork, a kind of catalog created by the artist from an exhibition at Amsterdam's Warehouse Galerie, which is a book of advice with text taking from a reading of *The Book of Genesis*. The text has vellum overlays which illustrate through the artist's works of art the text with memory, environment, creativity. It is a wonderful catalog of positive philosophies. It is a book of meditation and contemplation.
